## Timber Management and Marketing Meeting

### Woodlot Management Tips That Pay

Thursday, February 16th, 2012

Barnesville Library Annex—St. Rt. 800—Across from the Museum

611 North Chestnut, Barnesville Ohio, 43713

# Don't Just Sell Your Timber—Market It!

Proper management and marketing of timber stands can result in huge dividends for the woodland owner.

This meeting will provide information to help you manage your forest using up-to-date techniques.

Best management practices used during timber harvests will be shared to explain liabilities and emphasize environmental safe guards during a harvest.

**Discussion on the impact for Eastern Ohio forests.**

**David Apsley—Natural Resources Specialist, OSU Extension**

**Jeremy Scherf— ODNR Service Forester**

David and Jeremy will discuss the roll of timber management in your forest. Personal goals may be accomplished through different harvesting methods. Recreation, income, wildlife habitat, aesthetics, inheritance wishes or other factors may be considered when implementing a plan. They will explain procedures of the harvest, and discuss timber contracts.

**Management plans for marketing will be discussed for your consideration.**

**Belmont SWCD**

**Liza Butler**—The Soil and Water Conservation District will provide information on best management practices and their need in timber harvests.

**OSU Extension** -Their will be an update on the latest information on the Emerald Ash Borer

**For more information contact the Extension Office at 740-695-1455**
