

Documents to Submit to LCSWCD for Development Plan Review

Licking County Soil and Water Conservation District

Documents required for Review by LCSWCD:

1. SWPPP Plan, along with a full plan set (Template is Available from U.S. EPA).

This often is incorporated into the plan set as SWPPP pages within the construction set, though it may also be accepted as a separate document. It will be reviewed primarily at the Construction Plan stage, though it should generally be all in place at the Preliminary Plan stage.

2. Long-term Stormwater Operations and Maintenance Plan (Assistance Document Is Available from LCSWCD).

This document will be required before final plat is reached, though it should be submitted along with the Construction Plan, as a separate document.

Additional Documents needed for reviewing assistance:

3. Stormwater Calculations (Licking County Subdivision Regulations Article 6 calculations are required by the Licking County Engineers Office; Please provide LCSWCD with a copy)

This document is not a document that LCSWCD will review, but requires to have for our records.

Please compile the above documents and send to Licking County Soil and Water Conservation District:

Or mail or deliver to:
